EXPERIENCE

Senior Software Engineer

Emjay Solutions(via [codementor](#)), Remote, Jun. 2021 – present

- Enhanced the popular enterprise.io car rental webpage to improve optimization and performance, resulting in a more user-friendly and seamless experience for customers worldwide when renting vehicles.
- Engineered both frontend and backend architecture and services for Rushpluss, a social platform, implementing robust authorization and authentication techniques using NodeJS and JWT to enable secured and seamless user interaction on the platform.
- Collaborated closely with a team of designers to enhance the user interface features for a specialized mental health application designed for Lecturers, leading to a 94% user satisfaction rate.
- Demonstrated an ability to deliver swift and effective solutions, coupled with proactive troubleshooting, to resolve complex issues.
- Delivered maintainable solutions by utilizing best practices such as version control, code reviews, and testing, and participated in team meetings to exchange ideas, and enhance development processes.

SKILLS USED

ReactJS, NextJS, Typescript, ReduxJS, Redux toolkit, ExpressJS, NodeJS, MongoDB, JWT, GraphQL, Apollo-client, Apollo-server, RestAPI, Oauth/Oauth2, PostgreSQL, MySQL, HTML, CSS3, DiscordAPI, Azure, Firebase, Git/Source control, TDD, Mocha, Jest.

Fullstack Software Developer

UNPLUGDD, Lagos. Apr. 2019 – Jun. 2021

- Led a team of developers in the successful development of a robust upgraded version of the company's software application, resulting in a 25% increase in revenue in 6 months.
- Integrated a messaging system for the users using socket.io and Nodejs, enhancing the interactive and immersive experience for users during live events.
- Collaborated with the team of software engineers to build a responsive and high-performance user interface for Unplugdd Media, utilizing React and Next.js technologies to enhance user experience.
- Built the platform's API service using GraphQL, serving data to over 600,000 concurrent users, resulting in improved efficiency and enhanced system software performance.
- Reviewed code and conducted testing for 4 additional features for the live HD event app, improving efficiency by 15%.

SKILLS USED

NextJS, RectJS, Redux, GraphQL, socket.io, JSX, Bootstrap, CSS, Typescript, NodeJS.

LANGUAGE

ENGLISH - Fluent
