SOFT SKILLS

Fast Learner

Strong problem solving skills

Excellent verbal and written communication skills

Attention to detail

Team Player

Excellent debugging skills

Flexibility

EXPERIENCE

Fullstack Software Engineer

EMJAY SOLUTIONS, Jun. 2021 – present

SKILLS USED

ReactJS, NextJS, Typescript, ReduxJS, Redux toolkit, ExpressJS, NodeJS, MongoDB, JWT, GraphQL, Apollo-client, Apollo-server, RestAPI, Oauth/Oauth2, PostgreSQL, MySQL, HTML, CSS3, DiscordAPI, Firebase, Git/Source control, TDD, Mocha, Jest.

- Collaborated closely with a team of designers to enhance the user interface features for a specialized mental health application designed for Lecturers, leading to a 94% user satisfaction rate.
- Engineered both frontend and backend architecture and services for Rushpluss, a social platform, implementing robust authorization and authentication techniques using NodeJS and JWT to enable secured and seamless user interaction on the platform.
- Enhanced the popular enterprise.io car rental webpage to improve optimization and performance, resulting in a more user-friendly and seamless experience for customers worldwide when renting vehicles.
- Built a RESTful API to add additional features to an e-commerce website using Nodejs, ExpressJS and PostgreSQL, leading to a 35% decrease in user's query tickets
- Delivered maintainable solutions by utilizing best practices such as version control, code reviews, and testing, and participated in team meetings to exchange ideas, and enhance development processes.

Fullstack Software Developer

UNPLUGDD, Apr. 2019 – Jun. 2021

SKILLS USED

NextJS, RectJS, Redux, GraphQL, socket.io, JSX, Bootstrap, CSS, Typescript, NodeJS.

- Led a team of developers in the successful development of a robust upgraded version of the company's software application, resulting in a 25% increase in revenue in 6 months.
- Integrated a messaging system for users using socket.io and Nodejs, enhancing the interactive and immersive experience for users during live events.
- Collaborated with a team of software engineers to build a responsive and high-performance user interface for Unplugdd Media, utilizing React and Next.js technologies to enhance user experience.
- Built the platform's API service using GraphQL, serving data to over 600,000 concurrent users, resulting in improved efficiency and enhanced system software performance.
- Reviewed code and conducted testing for additional features for the live HD event app, improving efficiency by 15%.

LANGUAGE

ENGLISH - Fluent

EDUCATION

MSc User Experience Design

- sept. 2022 - sept. 2023, Birmingham, United kingdom

BSc Computer Science

- 2014 - 2018

Junior Frontend Developer

AGAPE, May 2018 – Mar. 2019

SKILLS USED

HTML, CSS, Javascript, Bootstrap, MaterializeCSS, Toastr, JQuery, Stripe.js, ExpressJS, TailwindCSS, animations, responsive design.

- Collaborated with a co-developer to rebuild the school's website, achieving a 70% reduction in loading time, enhancing user experience and site performance.
- Integrated an online payment system into the school platform utilizing Stripe.js and jQuery, replacing the conventional walk-in payment method and streamlining the transaction process.
- Collaborated with senior software engineering team members to contribute to the development of multiple software solutions across various platforms, with a focus on ensuring responsiveness for mobile, tablet, and desktop interfaces.
- Participated in developer-oriented social events to network with peers from across the world, share insights on how to improve the user experience, and learn about the latest trends in Web development.
